325 Corporate Drive
Mahwah, New Jersey

Program Overview

This Interactive cadaver course has been designed for those specializing in Oral and Maxillofacial Surgery, Plastic Surgery, and Otolaryngology-Head and Neck Surgery, who have a desire to gain advanced knowledge and skills in treatment planning and surgical techniques. This course has a heavy practicum emphasis with multiple cadaver workshops where surgical approaches and the finer points of procedures are offered. Topics will include surgical approaches to the cranioorbital, midface, and mandibular regions, head and neck surgery and advanced reconstruction.
